Dear Art,

After our useful telephone discussion yesterday, I hasten to put in the mail the updated report I have just completed, which covers not only Barclay itself but also subsequent applications, of which a number more have been published since last July. Some of them are particularly interesting, either because they follow up some of the more dubious aspects of Barclay itself or because they have affinities with other lines of development.

I will not go into any greater detail at this time, in view of the lengthy talk we had yesterday, but please let me know if there are any questions in the report on which you would welcome further advice.

I enclose our debit note for this particular item.

Yours sincerely,

J.H. BASS
